

Trees Resting On Your Bed?

Trees: strong, sturdy, and good for birds. Even sturdy trees, however, sometimes like to rest. And when a tree rests, it's important to know what to do. When a tree rests on your fence, visit the SES website. When a tree rests on a person, dial 000. However, when a tree rests on your bed, call 132-500 for the SES. Because sometimes trees like to rest.
