RECEIVED 16 OCT 2014

Honourable Minister

I have read the latest flow chart , which appears to be the UFU preferred model, and although it extensively lists the intentions of each branch, there is much detail lacking that would enable the reader form an opinion.

In just one area – that of RTO Trainer/Assessor development, although on the face of it this appears to be a positive gain, it would only be so if it was not under the control of the MFS, who clearly do not accept **NATIONALLY** certified trainer / assessors from other agencies, nor volunteers holding the same certification.

Rather than bring up other examples, it may answer a lot of my concerns if you either acknowledge or deny that this area of training will remain open , available and equal to all trainers/assessors – not just those within the MFS. It would be a total waste of resources and experience if these people are to be discarded.

Yours Truly

John Edge ESM
